Overview The ideal candidate will have a good level of experience working with Adobe software. We are looking for an individual who can maintain a high quality of work. You will be able to manage your own time effectively within strict deadlines and work efficiently both independently and as part of a team.

Job Description To create high quality packaging artwork for multiple branded products within the Company portfolio.

Main Duties & Responsibilities

- Develop packaging artwork from supplied cutter guides, importing these into Adobe Indesign, adding key brand elements (logos text etc.) to produce various types of packaging (boxes, header cards, labels etc.).
- Use individual style guides to ensure key brand elements are maintained.
- Import and format text documents to construct technical manuals, safety sheets etc.

Required Skills

- Practical experience of using Adobe CS Suite, Illustrator, Indesign and Photoshop.
- Have a keen eye for detail.
- Be a good communicator.
- Be able to work effectively under pressure.
- Be able to manage own time effectively to complete all workload within strict deadlines.
- Work efficiently both independently and as part of a team. This will occasionally require liaising with in-house buyers and technical authors.
